

Readunit functions

Location structure

mother and child locations

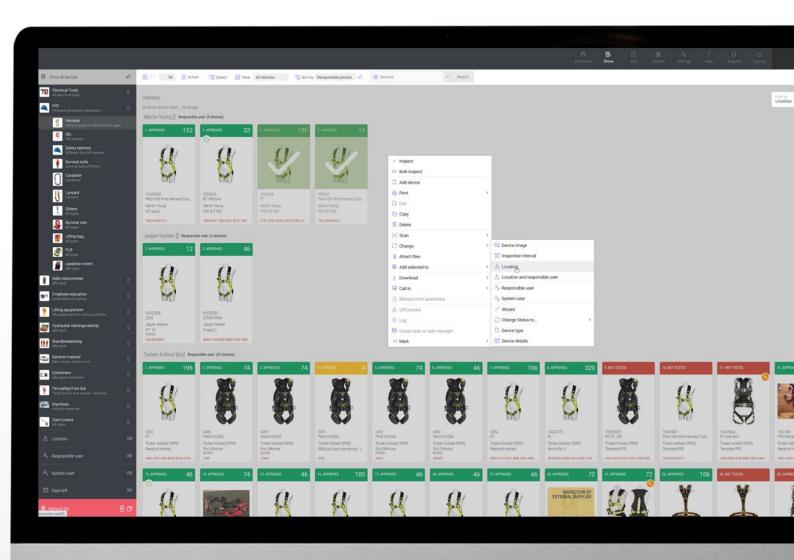

Visual GUI with your own device images.

Set up your own visual labels on your equipment eg. "send to supplier", "Service ordered", "booked for a period" User friendly, select and right click and pick an action.

Easy to use

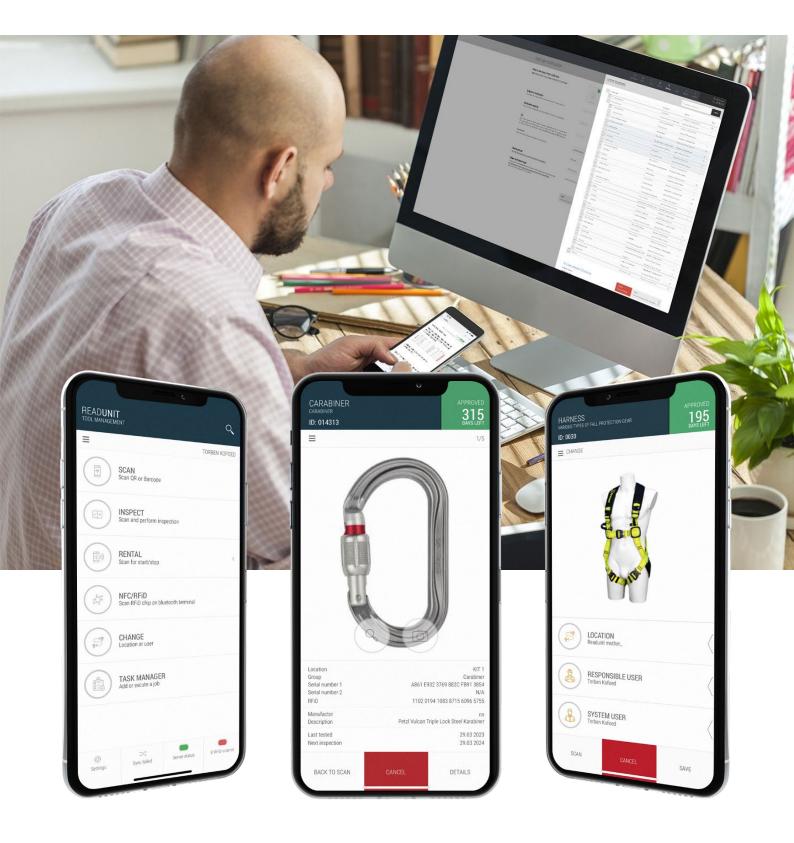

Easy access to modify, locations, responsible users, system users, inspection frequency. Add multiple inspections on a device (e.g. yearly inspection and monthly visual)

Readunit app

Upload your certificates and/or user manual directly on the equipment and get easy access via smartphone.

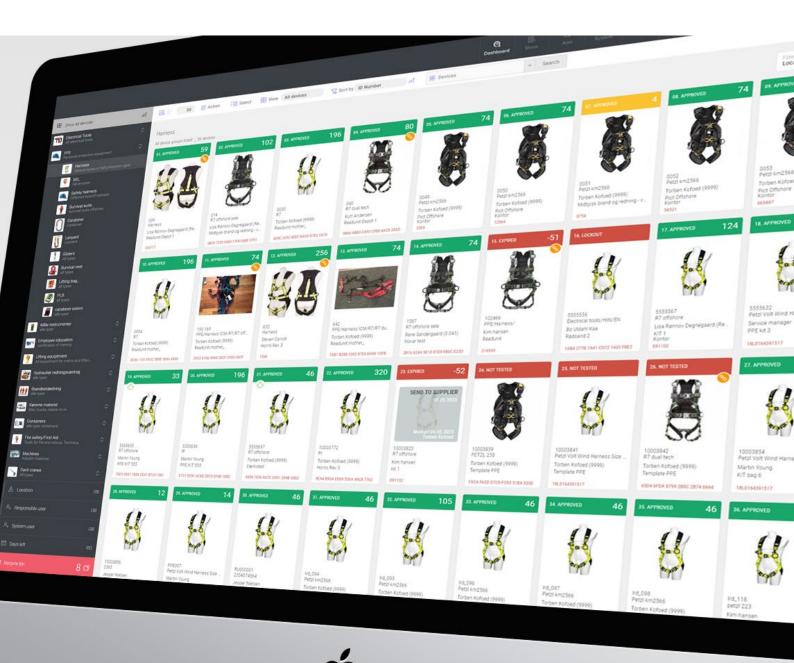

LOG

Full LOG and traceability on all actions performed on a specific device.

READUNIT[®]

Device group and device type overview.

Inspection

Flexible check points connected to individual device types (can be modified on device level). Perform structured inspections, step by step.

Invite your 3 party suppliers to perform inspections directly into Readunit.

	8. Condition of the conflut parts	1. A
	Not present Not tested Doctional Lockson Quarantine	Passed

GPS tracking

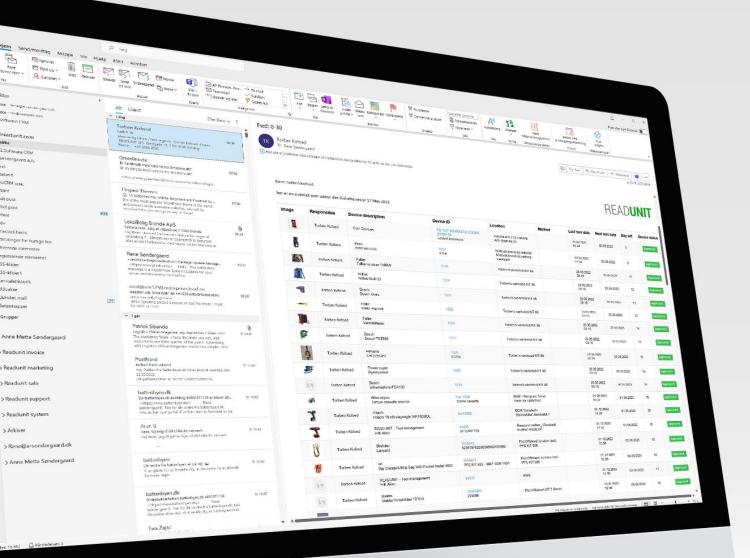

It is possibility to track devices and locations.

Notifications

Automatic generated notifications can be send to users informing on upcoming inspections.

Backup

Possibility to set up an automated Backup where Readunit send a full back up to your own defined server.
